2017 ANNUAL REPORT

OCTOBER 1, 2016 - SEPTEMBER 30, 2017

## Dear Friends of Art Access,

Thank you for making 2016-17 another remarkable year for Art Access! This year Art Access hired our outstanding new Executive Director, Shandra Benito. On behalf of the entire board, I can attest that we are nothing less than amazed at what she and her dedicated team have accomplished. Shandra's unwavering focus on Art Access' mission of providing creative opportunities for people with disabilities and other marginalized communities has re-energized our programs, and her dedication to hiring and retaining passionate and dedicated staff has resulted in impressive momentum for the organization.

The board of Art Access is an accomplished group of 16 individuals focused on leading the organization into the future with financial strength and an unwavering focus on our mission. New ideas are gaining momentum and opportunities are presenting themselves, such as Art Everywhere and Breaking Barriers. At the same time, through our staff's efforts, we've identified new sources of funding to help renew our Partners mentorship program - a much-loved and influential program in our community that pairs professional, working artists with aspiring artists who have disabilities. Art Access is creative in responding to community needs as they are identified and in adapting programs to serve unique populations. Each program is evaluated for both the financial and social return on investment; it is the social return that keeps us motivated.

We continue to pursue innovative ideas that help remove barriers to inclusion and acceptance throughout our community. We believe that by focusing on a few big programs and working with our partners on creative solutions, we can help every person tell their story. In spite of uncertainty about the future of charitable giving, we have increased donations from nearly all sources. Even still, the board is working hard to educate the larger community about the impact of our work, and to deepen and broaden sources of funding for these programs.

We are fortunate to have a dedicated staff who work diligently to maintain the quality and accessibility of programs. We rely on the time and expertise of our volunteer board and community stakeholders who support programs and fundraising events. Finally, and most importantly, we are dependent on and grateful to our generous donors. Without them, none of this could happen.

We invite you to stop by the gallery to see our current exhibit, or even just join us on Facebook or Instagram so that you can stay abreast of the innovative and impactful work that Art Access is undertaking.

Thank you,  
Virginia Gowski  
Board Chair, Art Access

## Dear Art Access Supporters,

This year we have done some soul searching and reflection on how Art Access can best serve you, our community. We are reaffirming our commitment to centering our programs and services around those in our community with the greatest barriers to the life-changing power of the arts: people with disabilities, immigrants, and refugees, survivors of violence, veterans, low-income families, people struggling with addiction, and homeless community members.

With that, we have updated our mission: Art Access builds an inclusive and diverse arts community by providing creative opportunities for people with disabilities and other marginalized communities and through public engagement in the arts.

This year we featured 11 distinct gallery exhibits around topics that bring our community together and start important conversations. Our Dreamer's exhibit featured powerful portraits and the stories of immigrants and refugees in our community. The Heal Courageously exhibit featured moving work of children living with life-threatening and terminal illnesses with their families done in collaboration with the Ronald McDonald House and Heal Courageously. We featured work by Pacific Islander and Indigenous artists as well as veterans artists and artists living with Multiple Sclerosis.

In our programs, we served over 15,000 people in 2016/2017 and we are excited to grow some of our most critical programs in the next year. We are bringing back the Partners Mentorship Program, to ensure that emerging artists with disabilities have the support to become thriving professional artists. We are also expanding our Art Therapy for Survivors program to make sure that all survivors in our community have the opportunity to heal through art.

It has been an honor to join you this year as Art Access' new executive director. This year has been a year of transition for me and Art Access. I moved from Seattle, WA at the very beginning of January in the middle of a winter snow storm. Despite having to shovel snow for the first time ever, I fell instantly in love with Salt Lake City and this incredible community and organization.

Thank you to everyone who has welcomed me to Salt Lake City and embraced Art Access as we entered a time of incubation and transition. I am proud to say that thanks to our tireless staff and board and supporters Art Access is as strong and committed to our work as ever.

Thank you for your support, and we look forward to serving you in the year ahead,  
Shandra Benito  
Executive Director

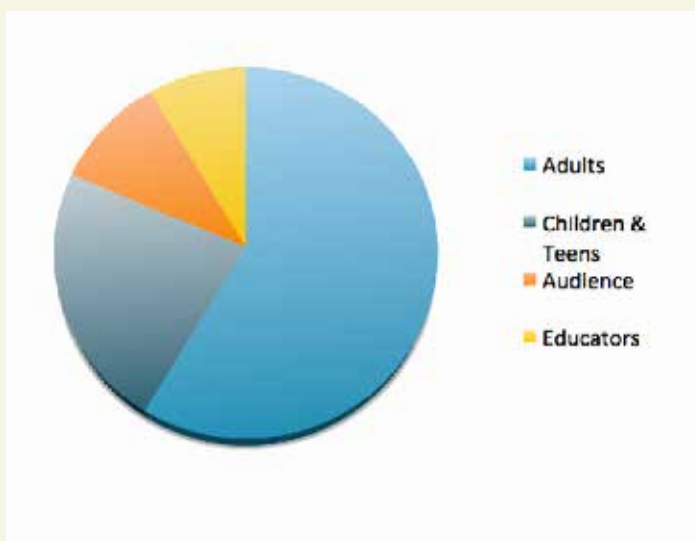

# Organizational Overview

Art is for Everyone.

Founded in 1984, our mission is to build a diverse and inclusive arts community in Utah by providing creative opportunities for people with disabilities and other marginalized communities, and by providing public engagement in the arts for our broader community. Our programs provide meaningful artistic opportunities to people who have traditionally been excluded from arts and cultural activities.

Art Access has a long and proven history of providing high-quality arts education and accessibility services to Utahns of all ages, backgrounds, and abilities. We have established an exceptional reputation locally for our mission-driven programs and consistently draw from a pool of local, talented, and experienced teaching artists and art therapists to conduct mentoring and workshops. We are an affiliate of VSA, which is a program of the John F. Kennedy Center for the Performing Arts through its Office of VSA & Accessibility. Most significantly, we are the only arts organization in Utah that specifically considers the unique needs of people with disabilities when developing our inclusive and accessible arts programming.

Art Access serves a diverse population of adults and children with and without disabilities, as well as the elderly, youth-at-risk, refugees, the homeless, veterans, and other disenfranchised peoples. By engaging the community in educational and artful experiences through our galleries and programming, Art Access continues to play a significant role in helping to eliminate social barriers and create an inclusive world for everyone through art. We believe that the arts are an important vehicle for self-esteem development, self-expression, community building, and creating understanding and compassion across diverse communities in our state, county, and city.

## Art Access Gallery

Founded in 1993

Art Access Gallery serves as an access point through which emerging artists, artists with disabilities, and others with limited access to the arts can enter and thrive in the local arts community. They do so by exhibiting their own artwork with that of established Utah artists and by taking part in professional development activities. In doing so, Art Access Gallery celebrates and cultivates the talents of diverse artists while educating the community to understand the artistic talents of Utahns of all ages, backgrounds, and abilities.

Art Access believes that we can build a stronger community by connecting people through the storytelling inherent in the creation and appreciation of art. Each year, in addition to regular programming, we focus on two to three topics that integrate gallery exhibits, workshops, panel discussions, book group literature, and targeted partnerships. This comprehensive approach invites community members to engage more intensively in discussion, safely explore controversy, share similarities and differences, and experience respectful dialogue. Topics explored over this past year were aging and dementia, Multiple Sclerosis, immigration, grief, and bereavement.

# Integrated Arts Residencies for Youth

Program founded in 1993

Festivals conducted since 1984

Integrated Arts in Utah Schools was established in 1993 to provide integrated arts programs in Utah schools and service facilities for children and young adults, ages 3 to 22, who receive special education services. Art Access helps develop integrated arts programs for pre-kindergarten to 12th grade students via these methods: in and out-of-school residencies, in and out-of-school workshops, and festivals.

Based on reports from program sites and trusted teaching instructors and evaluations from participants, we know that Integrated Arts programming has demonstrated consistent success, and strengthens our community by providing free and targeted arts activities to students with sensory, cognitive, learning, developmental, and/or physical disabilities. By creating art in an inclusive environment with their peers, and under the instruction of professional teaching artists, students with disabilities can develop the following: small and large motor coordination; language and interpersonal skills; conflict resolution, behavior and stress management; creativity, self-awareness, and self-esteem; integration into the community life of their school; and additional social and academic success.

Art Access is keenly aware of the rise in Veterans returning from deployment and service with physical, mental, and/or emotional disabilities, as well as the current health care crisis for Veterans nationwide. While we understand that no one organization can address the unique, urgent, and complicated issues that face Utah Veterans, our Veterans programming is part of a local support system that honors their service, helps them process and express their experiences, and ease the transition to civilian life. Veterans can benefit from creating art in a therapeutic environment while also sharing their personal stories with the community. Program goals include offering Veterans creative outlets, therapeutic and healing opportunities, and a sense of community.
